Oroshaza.

1. Prior to 5 February 1951, a training battalion of the Hungarian Border Guard Force [REDACTED] was located in the barracks installation on the western perimeter of Oroshaza (Y 7/0 60), on the north side of the road to Szentcs (Y 7/0 32) and opposite the Bonum railroad stop. The Szentcs road and the railroad line intersect just east of the billeting area.

2. The training battalion was organized into the battalion headquarters and three training companies which were not committed to border guard duty. Each company consisted of three platoons, with three squads to each platoon. A platoon averaged 40 to 50 men. Officers of the battalion included Captain Mihály Bekessy, commanding officer; Senior Lieutenant László Szrapko, deputy battalion commander; Lieutenant Istvan Cintula, political officer; Junior Lieutenant István Juhász, battalion adjutant; Lieutenant Kálmán Csurdí, commanding officer of 1st Co; and Junior Lieutenant Zoltán Hoffer, commanding officer of 3d Co.

3. About 95 percent of the enlisted personnel of the battalion belonged to the 1929 and 1930 classes. The rest were members of the 1927 and 1928 classes. \* Recruits received basic infantry training and special border guard training. The soldiers were explicitly told to shoot only in the most urgent cases during border duty. Persons shot at should be killed rather than wounded. The recruits of the training companies were armed with Soviet model M-48, 7.62-mm rifles. Submachine guns with drum magazines and Soviet light machine guns with disk-shaped magazines were issued only for training. No large scale field exercises were held.
